

IOWA BOARD OF MEDICAL EXAMINERS PRESS RELEASE

For release, October 18, 2002

Recently, the Iowa Board of Medical Examiners took the following action:

Daniel E. Miulli, D.O., a 42 year-old neurosurgeon formerly practicing in Des Moines, Iowa, had the restriction on his ability to perform neuro-surgery lifted to the extent necessary for him to complete a Board-approved education and monitoring program. On January 18, 2001, the Board filed an Order indefinitely prohibiting Dr. Miulli from practicing neuro-surgery under his Iowa medical license based on care concerns for his treatment of at least five patients between 1998 and 2001. Dr. Miulli is subject to close monitoring by the Board and a Board-approved neurosurgeon while he completes the Board-approved education and monitoring program.
